

Dear Mrs Jefferies,

I think we should have a boxing club.

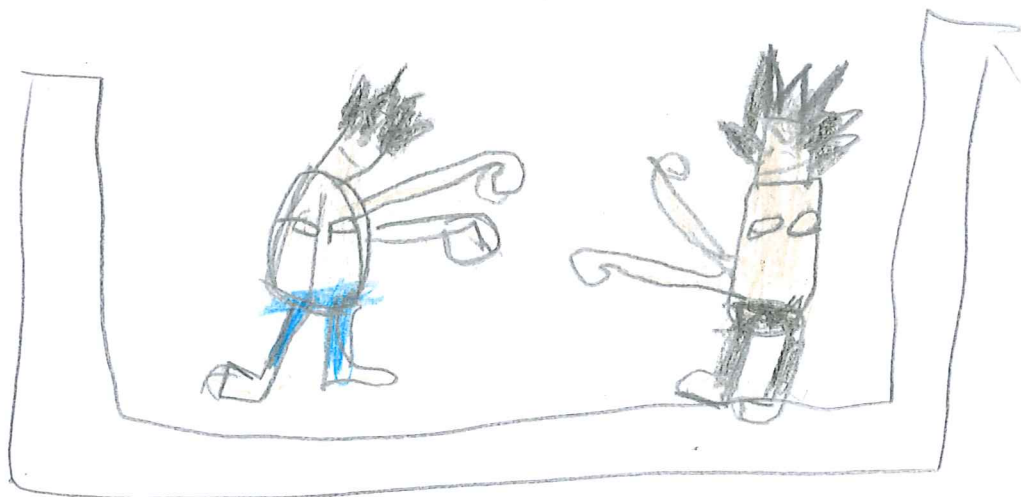

If we have a boxing club we can do boxing hits high and we can train.

Boxing would make us fit. We could use the gymnastic mats so when we get chucked on the ground, it would be soft and won't hurt.

It could be on every Monday and it will be fit and fun.

I like boxing Mrs Jefferies.

Dear Mrs Jefferies,

I want a science club please.

Science is fun because people can make stuff in new experiments.

We can have a disco to raise money for it. It will be at Normanby School.

We can write about the experiments. We can have a book to make pictures.

It can be good for the school because you learn new things. The classrooms can have a turn.

So please let us have a science club.

By Amber-Lee

Dear Mrs Jefferies,

I would like a trampoline at school.

If we could have a trampoline we can keep fit. Trampolines are fun to go on and you can learn new tricks.

We can raise money with a disco to pay for it. We can keep it by the sand pit on the field.

Can we please have a trampoline?

By Jackson.
